Module 3: Exports	5
Target Audience	5
Learning Outcomes	5

Course Overview: Level 1 Foundation

This 12-week intensive program is divided into three specialized modules. It is designed to equip participants with the essential skills to navigate the Guyana Revenue Authority (GRA) systems and international trade regulations.

MODULE 1: LEVEL 1 FOUNDATION (4 WEEKS)

Focus: System Navigation and Regulatory Frameworks

WEEK 1

Introduction to the Customs Broker User Desktop, understanding Electronic Single Administrative Documents (ESAD), and Models of Declaration.

WEEK 2

Mastery of Special Tax Treatments, Additional National Codes (ANC), and import procedures for Pesticides and Toxic Chemicals.

WEEK 3

Understanding Excise Tax, Food and Drug regulations, and the ASYCUDA process for Motor Vehicle entries and tax exemptions.

WEEK 4

Government Agency functions, advanced Classification processes, and the finalization of goods declarations.

MODULE 2: IMPORTS (4 WEEKS)

Focus: Technical Preparation and ASYCUDA Entry for Inbound Goods

WEEK 1

Import Control procedures and Food Product demonstrations.

WEEK 2

Specialized handling for Pharmaceuticals and Chemicals.

WEEK 3

Document preparation for Building Materials and Fish Products.

WEEK 4

Plant Products and final ASYCUDA preparation across all major import categories.

MODULE 3: EXPORTS (4 WEEKS)

Focus: Specialized Commodity Handling and Outbound Logistics

WEEK 1

Export Control and Scrap Metal preparation.

WEEK 2

Handling Fuel Samples and Sand exports.

WEEK 3

Gold, Diamond, and Local Manufactured Goods preparation.

WEEK 4

Logs, Lumber, and final ASYCUDA export processing.

Target Audience

- Aspiring Customs Brokers and Clerks.
- Logistics and Supply Chain personnel.
- Importers/Exporters seeking to understand the technical side of their business.
- Recent graduates looking to enter the Trade and Oil & Gas sectors.

Learning Outcomes

Upon completion, participants will be able to:

1. **Navigate ASYCUDA World:** Confidently use the system to create, view, and submit declarations.
2. **Ensure Compliance:** Correctly apply CPC codes, tax treatments, and agency-specific regulations.
3. **Process Complex Commodities:** Prepare documentation for sensitive items including gold, fuel, chemicals, and timber.
4. **Optimize Clearing Times:** Reduce errors in documentation to expedite the release of cargo.
5. Importers/Exporters seeking to understand the technical side of their business.
6. Recent graduates looking to enter the Trade and Oil & Gas sectors.
